**APSHOTS SPOTLIGHT**

**Symmetry of icicles and abundance of snow caught Koliczak's eye on a recent winter day.**

The change in how Algonoma High School delivers industrial technology courses has been a positive experience for Kyle. "I like it better this way. You get to know how it is actually done — the ordering of materials, the programming side, everything. It is not bookwork, machining side, every-

needed to figure out how to recreate a metal part from a solid rectangular piece of metal. He went straight to the computer to use the AutoCAD (computer-aided design) program and Mastercam, a computer-aided machining program to create his plan for the computer nu-

**See TECH, Page 7A**

Holmes, an Algoma High School senior student, demonstrates how the metal CNC line operates.
